Redemption Strategy

Bonds issued by Kentucky Housing Corporation (the "Corporation") are subject to redemption at any time, at par, from mortgage loan principal payments and recoveries of principal not otherwise required to pay debt service on Bonds and excess revenues. It has been the practice of the Corporation to redeem bonds monthly or quarterly. The Internal Revenue Code (IRC) requires that mortgage loan principal payments and recoveries of principal restricted by the 10-year rule be used to redeem bonds within the Series to which such mortgage loans are allocated for tax purposes. (The following schedule on page 9 provides restricted percentages by Series).

The Resolutions of individual Series may have additional requirements regarding the redemption of specific bonds. For example, the Corporation has issued Planned Amortization Class (PAC) Bonds within the structure of certain Series. This requires recoveries of principal, up to a predetermined level, to be used to redeem the PAC bonds. This level is based on assumptions regarding portfolio performance and prepayments. Within other Series a 10-year redemption lockout has been offered to a bondholder. In exchange, the holder accepted a lower interest rate.

In lieu of redeeming bonds as described above, the Corporation may use unrestricted mortgage loan principal payments and recoveries of principal to purchase additional mortgage loans. If mortgage loans are not purchased, the Corporation uses unrestricted mortgage loan principal payments and recoveries of principal to redeem Bonds, including cross-calling Bonds between Series. It is the general practice of the Corporation to cross-call Bonds with the highest interest rates. Future cross-call redemptions, if any, may be affected by redemption provisions of individual Series and federal tax requirements. (Page 10 provides a listing of the outstanding series with the highest coupon rates in the Corporation's current portfolio).
